

SANTORINI YACHT SERVICES

Santorini One Day Cruise

We have the pleasure to inform you about the **SANTORINI ONE DAY CRUISE**. A Cruises that gives you the opportunity to explore the best sites-beaches on the island by Yacht and even!

We start our program from Vlihada Marine at 09:00.

We cruise along the **Red Beach**, the **White Beach**, the rock formations of **Akrotiri** (cape),

Where you can admire the different lava layers of Santorini, the **Faros** (Lighthouse) at the Southwestern part of the island.

Then, we will be able to see the Nea Kameni and Palea Kameni islands, the only two volcanic island that are located inside the caldera, owing their existence to the volcanic eruption of 1570 bc. We have the opportunity to walk up to the crater and also swim at the Hot Springs (Zesta Nera), where the water is green and yellow due to the sulfur and iron.

Stop at the traditional island of **Thirasia**, the only island inside inside the caldera, consisted of Santorinian Soil. It was separated from the rest of the island whne the first eruption took place. Its beaty will amaze you. It's very interesting seeing also the way of life in Thirasia Island the way Santorini used to be 20-30 years ago.

Our last stop is in Oia beach (Amoudi) for photos and lunch or early dinner for fresh fish (optional). Oia is a traditional settlement with houses constructed right at the rim of the caldera giving you the impression that are actually hanging from the cliffs. The most famous and spectacular sunset all over the world seems even better from yacht

Passing from the old port of Fira at the bottom of the town, you will not stop taking pictures, memories captured in your cameras that you will not be able to wait showing them to your friends once you return back to your countries, carrying all that wonderful time that you had passed with yacht cruise. Afterwards, we will cruise leisurely around into the Caldera for the sunset dinner and cold glass of champagne onboard. Our cruise will end again in Vlihada Marine, all the beautiful things have an end, but then, that's why memories stay alive!

You can personalize your own Cruise also

You should wish to compile your own program, whether it be a matter of hours visiting the volcano or places of your choice, we would be happy to discuss your program onboard.
